1. Introduction

This document presents the actions have been conducted for the dissemination of the project, as well as for the exchange of knowledge between different group of people. More specifically, the conducted activities aimed at the knowledge transfer between academic community of various countries in order to:

- ensure common understanding among partnership
- ensure the coherence of the outcomes
- enhance the quality of supervision and management skills towards the successful implementation of the project
- recognise and validate the learning outcomes of the participants

These initiatives promote the collaboration and the exchange of knowledge and best practices in the ICT-enabled Governance.
