

Francesco Mureddu is an advisor in innovation and technology policies. During his career Francesco has been primarily involved in designing and delivering consultancy and research projects for the European Institutions in a wide variety of topics including Information Society and ICT, e-government, Smart Cities, ICT-enabled social innovation, future science, research and innovation policies. During this activity, Francesco has developed an extensive network across European Commission services, private companies and research organizations. His specific fields of expertise include evaluation of policy initiatives and programmes, impact assessments, policy monitoring and benchmarking, policy development, counterfactual impact evaluation, technology roadmapping and scenario development, economic and econometric modelling, cost/benefit and sensitivity analysis, stakeholders' consultation and engagement. Francesco is currently Associate Director at the Belgian Think Tank, The Lisbon Council, Associated Researcher at the Centre for North South Economic Research (CRENoS) of the University of Cagliari, as well as co-founder of the cyber security startup Intelligence Framework Inc. In addition to that, Francesco regularly serves as independent expert for a variety of clients, including the European Commission, for which he evaluates proposals submitted for the EU funding programme Horizon 2020, and PwC Italy, for which he oversees specific activities in the realm of evaluation and roadmapping. Francesco holds an MA in Economics from the Catholic University of Louvain and a PhD in Economics from the University of Cagliari, and is able to work and interact in English and Spanish.
