Prof. Robert Krimmer is Full Professor of e-Governance at Ragnar Nurkse Department of Innovation and Governance in the School of Business and Governance, Tallinn University of Technology, Estonia. Robert's research is focused on electronic participation and democracy, as well as e-voting, the transformation of the public sector, and all issues further developing a digital society. Robert is also Associate Editor of the international scientific journal Government Information Quarterly (GIQ), where he is in charge of participation issues.

In 2019, he has been mentioned as one of the top 16 academics within the list of 100 most influential people in digital government by Apolitical. Since 2017, Robert has been coordinating TOOP, the EU H2020 large-scale pilot on exploring and demonstrating the feasibility of the once-only principle involving 50+ partners from more than 20 countries inside and outside the European Union. He has been a member of the group of experts for the 2017 update of Recommendation on e-Voting and the 2009 Recommendation on e-Democracy. Before returning to academia, Robert was OSCE/ODIHR's first senior adviser on new voting technologies. In the past he advised CoE, OSCE/ODIHR, UNDP, WHO, ITU, IFAD, the European Commission and AWEB on various matters.

Teaching duties include lecturing on e-Governance, e-Democracy, e-Participation, e-Voting and End-User Management Information Systems at Tallinn University of Technology, University of Applied Sciences Hagenberg, Danube University Krems, and WU Vienna, University of Economics and Business. Robert has supervised two PhD theses and some forty graduate theses and he is author and/or editor of ten books/special issues of scientific journals. Prof. Krimmer has authored over 180 international scientific articles and been cited some 1200 times, with an Hirsch index of 17 according to Google Scholar.
